

PowerChurch Plus Workshops

Our PowerChurch Plus continuing education offerings provide unique learning and fellowship opportunities that empower participants to gain the knowledge and skills they need in support of their ministry. We take our work and the investment made by your church seriously, resulting in high quality training events that are consistently rated by attendees from around the country as excellent or outstanding.

Courses and workshops offer you:

- ✚ Gifted and supportive PowerChurch Plus authorized training professionals each with over a decade of applicable software and church operations expertise (2 attend each seminar to ensure you get the help you need)
- ✚ Small, interactive classes held in professional learning environments
- ✚ Laptops with fully functional PC+ databases provided for your use
- ✚ Hands-on/classroom style with church specific situational exercises and examples
- ✚ Thoughtfully prepared training agenda - including time to share experiences and fellowship with other users in your area

The registration fee includes admittance to the 3-day seminar, course workbooks, training materials, example reports, and laptops for your use. Each registrant also receives a Books in Order CTools© resource CD ROM developed over our 20-years of operational, outreach and stewardship service to church families throughout the United States. The CD includes useful tools, templates and educational materials designed to augment and support your use of the powerful tools provided in PowerChurch Plus.

We take care of all refreshments and snacks in addition to dinner fellowship on Thursday evening and lunch on Friday and Saturday. Discounted overnight accommodations are offered by the host event location if needed (*overnight rooms are not included in the registration fee).

Registration for the 3-day training workshop is \$375 for the first attendee or \$325 per attendee for 2 or more registrants (from the same church). PC+ is a feature rich church management tool and our training covers much more than just the software. Therefore, we do encourage attendance by the same registrant for all 3-days to receive the optimal educational experience. However, we understand that this is not always possible and churches may send a substitute attendee (or attendees) on selected days for no additional charge.
